

Kelvin Smith Library & Branches Bibliographic and Metadata Services 2007-2008

The following statistics reflect activity for the Bibliographic and Metadata Services Unit of the Kelvin Smith Library, including Case Western Reserve University's branch locations, for the 2007-2008 fiscal year. Data is recorded reflecting five (5) areas:

- New items added and withdrawn
- Items added by location code
- Items added by material type
- Ebooks
- Items added by call number

The first spreadsheet shows detailed monthly items added to KSL and CWRU's branch libraries. Items under "Music" include the Kulas Music Library and the Robinson Music Library of the Cleveland Institute of Music (CIM). Items under "A-V Etc. Materials" include the Kulas Music Library.

The second spreadsheet presents total items added by location code, material type, e-books, and call numbers. Information also consists of the average items added per month and the peak months for each field.

The pie chart, "KSL Book Additions and Withdrawals, 2007-2008," displays the number of book items added and withdrawn, as well as information on peak month for additions, and averages added and withdrawn per month. The next chart, "KSL Book Items Added, 2007-2008," shows the number of monographs added per month.

The chart "Items Added 2007-2008" gives a graphic representation of items added by location, and the subsequent chart "Material Types Added 2007-2008" gives a comparable representation.

"Call Numbers Added 2007-2008" shows the total items added by call number / subject matter. The "Music" category reflects the Kulas Music Library and the Robinson Music Library of the Cleveland Institute of Music (CIM), while "Fine Arts" includes items from the Gund Library of the Cleveland Institute of Art (CIA).

The last chart, "EBooks Added 2007-2008," leaves out a bar for February 2008, as that month saw a unique high number of e-books added to KSL.

Submitted August 2008

Richard Wisneski

Head, Bibliographic and Metadata Services
